

## A Silver coin from the Central Bank of Armenia

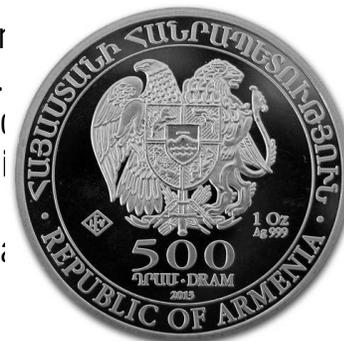

Recently the Central Bank of Armenia has issued a very striking and beautiful coin depicting Noah's Ark and Mt. Ararat. Unlike previously issued 1 oz commemorative silver coins of Armenia which were minted in very small quantities demand high prices of over \$120.00, these coins are minted in large quantities to bring the price down to a more reasonable level. The three main sizes are 1oz, half oz, and quarter oz.

If you have ever wondered what special gift to present to someone on their Birthday, Graduation, Anniversary or special achievement, here is a coin, a gift which is all Armenian, and is Silver.
