

## *It's a New Beginning*

The New Management of the Armenian Post (known as "HayPost" = "Հայփոստ") has issued the following new stamps. The stamps are printed by the Dutch security printer and come in sheets of 25.

It is the ultimate goal of the new management of HayPost to raise the standards of the Armenian Philately to those of the Western European countries. This fact is already shown by their professional distribution of the New Issues, and the promise that from next year the stamps will be issued in sheetlets of 10 and related information will be supplied way in advance.
