It is a common practice among the stamp collectors to collect the new issues in form of a single stamp and a block of 4. The more specialized collectors go for a complete sheet, FDC, and even Errors and Color Trials.

Since a new chapter is starting for the Armenian Philately, with the word "Post" printed on each stamp, we like to encourage our clients to consider collecting a single set and a block of 4 of every new issues.

With Bulletin 2007-18, as well as this Bulletin, we can supply you all the issues in CORNER BLOCKS of 4. Just order 4 sets of each stamp and we will send you a CORNER BLOCK OF 4.

Needless to say that the quantities of the Corner Blocks of 4 are limited, if you are interested in continuing to collect all the future issues in blocks of 4, please let me know so I can reserve them for you.
